

Lead cover 10312- 10

Short model

Product description

24 mm width switch box

Lead Cover for concealed fitting

For feeding cable with installation casing on both sides.

Installation system for minimal room dimensions and unobstructed movement. This system is particularly suitable for door systems with reduced spacing for hinges and inside hinges.

The advantage of this fitting type is being able to position the door nearly flush with the frame (<1 mm reveal when door is closed). Minimal gaps for door rotation, as with inside hinges, for instance, do not result in the door jamming.

Scope of delivery

- Lead cover

Note

- Short model

Technical data

Version	Cable routing
Version	Installation casing on both sides
Material spiral hose	Stainless steel
Material spiral hose	Stainless steel
Max. cable diameter	7 mm
Max. permissible horizontal rotation	100 mm
Length	330 mm
Width	24 mm
Depth	17 mm
