

11155 - glazing-bar hinge left brown

Technical drawing

			No
brown	left	50	11155

Features and advantages

- Saves time and material.
- Only one glazing-bar cross without frame — glazing-bar catch can be installed directly on the glazing-bar cross.
- Easy cleaning — glazing-bars can be removed, glazing-bar catch opens and closes easily.

Application:

For a glazing-bar cross to be installed in front the window.

Quality:

Polyamid 6, brass

Packing units:

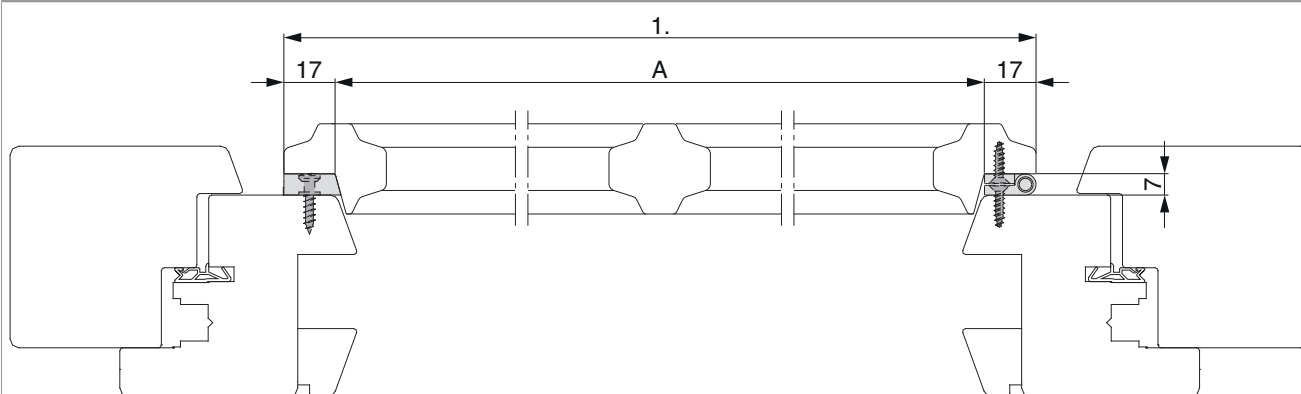

Glazing-bar catches: 50 catches and 100 screws Ø 3.5 x 15 mm in box

Glazing-bar hinges: 50 hinges and 100 screws Ø 3.5 x 15 mm in box

Installation of glazing-bar frame

1. Fasten glazing-bar hinge.
2. Install glazing-bar catch on frame. The glazing-bar catch has a notch (1) for easy installation (fig. 2) and can simply be screwed on.
3. Hinge glazing-bar frame and press against sash.
4. Pre-drill for knock-in pins on marked positions with Ø 2.5 mm drill.
5. When opening the glazing-bar catch the marking aids will fall out.

Installation - figure 1

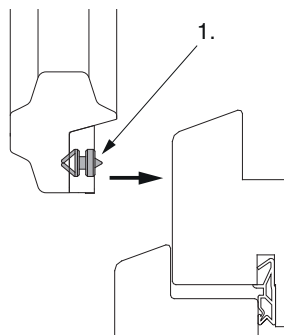

1. Outer frame dimensions = $A + 34$ (2x17)

11155 - glazing-bar hinge left brown

Installation - figure 2

1. Marking punch
